## Professional Summary:

With a master's degree in Rehabilitation Counseling and over 25 years of experience in chronic pain management, workplace injury rehabilitation, mental health, and addiction services, I bring a wealth of knowledge and expertise in supporting corporate wellness initiatives. My career highlights include serving on a multi-disciplinary team to establish the first CARF-accredited pain management program in Snohomish County, underscoring my ability to collaborate with medical professionals to create effective, evidence-based solutions for complex challenges.

I am also a Master Hypnotist, a member in good standing with the National Guild of Hypnotists, the American Hypnosis Association, and the International Metaphysical Ministry. This expertise enables me to offer tailored hypnotic and energy healing techniques to help individuals and organizations overcome barriers to success and well-being.

After taking a brief hiatus to focus on empowering disadvantaged populations, I shifted my efforts to support corporations and individuals in developing programs and businesses that align with core values and mission-driven goals. I have contributed to building infrastructure for adult daycare homes and was invited as a guest speaker at an all-mayors meeting in Snohomish County, where I emphasized the importance of affordable elder care and business ownership opportunities for women in caregiving roles.

For nearly a decade, I have maintained a successful private practice, offering one-on-one sessions and workshops on personal transformation and self-healing. I have also served as a guest instructor at Amazon, where I introduced self-hypnosis and energy healing techniques to leaders and managers, enhancing their leadership capabilities and personal well-being.

My mission is to promote self-healing in others and facilitate the ability to tap into the higher, intuitive mind. I aim to empower individuals to bring their strengths to a corporate setting while aligning their personal core values and integrity with the organizational environment, fostering an atmosphere of personal growth and professional success.
